

Personal data:

Full Name: Maroufidou Anastasia

E-mail Address: bio3050@edu.biology.uoc.gr

Short CV:

I am an undergraduate student in the Biology Department at the University of Crete. Currently, I am member of the Plant Biotechnology and Microbiology group (IMBB)-FORTH, with Professor P. Sarris as a supervisor. My thesis as a senior student focuses on the interaction of the XopP effector from *Xanthomonas campestris* with the 24 different Exo70 isoforms of the exocyst complex, in the plant model *Arabidopsis thaliana*.

Education:

Undergraduate student: 2018-present, in the field of Biomolecular Sciences and Biotechnology, Biology Department, University of Crete.
