

Heraklion, 02 October 2019

**POST DOCTORAL RESEARCHER**  
**Plant Molecular Biology**

Our group, (<http://www.imbb.forth.gr/kalantidis>) with a long expertise on RNA mediated phenomena, is seeking ambitious and hard working candidates to work on a project related to plant virology and viroid biology. The work will be conducted in Heraklion, on the island of Crete, Greece.

The contract is for 1+1 years as is expected to start in January 2019 but the exact starting date can be negotiated. The salary is defined at 80-90% of that of an Assistant Professor depending on experience and qualifications.

Applicants should be PhD holders, fluent in English and have a background in Biosciences. Previous Post-doctoral experience and publications are a significant plus.

Current EU residency is necessary.

Applicants interested should directly contact Dr. K Kalantidis ([kriton@imbb.forth.gr](mailto:kriton@imbb.forth.gr)) and include in their application a CV and addresses of at least two referees.

Application deadline 30/11/2019

Kriton Kalantidis  
Assoc. Prof. Dept. of Biology,  
and IMBB-FoRTH  
Heraklion, Greece
