## DeFiNER

IMBB-P.N.: 9289  
28/2/2017

According to the Grant Agreement for DeFiNER-646663, we have posted the advertisement for one (1) postdoctoral position in life sciences at the Garinis laboratory. The text for the DeFiNER's open positions posts has been published on February 8, 2017 (IMBB P.N. 9229/8-2-17) at the website of the Institute of Molecular Biology and Biotechnology-FORTH ([http://www.imbb.forth.gr/jobs/080217\\_Garinis.pdf](http://www.imbb.forth.gr/jobs/080217_Garinis.pdf)), the EURAXESS portal and the DIAYGEIA System ADA: ΩΑΒΒ469ΗΚΥ-ΕΒΨ.

The desired qualifications of the applicants involved a PhD degree in Life Sciences and laboratory experience in yeast and bacterial molecular genetics. Particular experience in protein characterization, protein-protein interactions and working with metalloproteins in *S. cerevisiae*.

Three applications were submitted to the Principal Investigator (PI) in charge i.e. George Garinis in response to the advertised position (Ref # OPZ-0034).

Dr. George Garinis, Dr. John Strouboulis and Dr. Nektarios Tavernarakis are the aforementioned scientists in charge on behalf of FORTH that consist the evaluation committee for the selection of postdoctoral scientists. The committee convened on February 24, 2017 and evaluated the applications that have been submitted for the open call regarding the position offered in the laboratory of Professor George Garinis. The committee decided to offer the job to Dr. George Fragiadakis. The selection was made on the basis of the education background of the applicant, his prior expertise and relevance in terms of her prior scientific focus to the DeFiNER's program aims and his publication record.

The applicant have been accordingly informed about the outcome of the evaluation process and Dr. George Fragiadakis was invited to sign a contract with IMBB-FORTH.

Heraklion, February 28, 2017

The selection committee:

George Garinis, PhD

---

Nektarios Tavernarakis, PhD

---

John Strouboulis, PhD
