Nucleotide Excision Repair: Decoding its Functional Role in Mammals

DeFiNER

IMBB-P.N.: 9911
4 July 2017

According to the Grant Agreement for DeFiNER-646663, we have posted the advertisement for one (1) PhD Studentship position in life sciences at the Garinis laboratory. The text for the DeFiNER's open positions posts has been published on June 19, 2017 (IMBB P.N. 9882/19-6-2017) at the website of the Institute of Molecular Biology and Biotechnology-FORTH (http://www.imbb.forth.gr/jobs/190617_Garinis.pdf), the EURAXESS portal and the DIAYGEIA System ADA: 72H3469HKY-B4T.

The desired qualifications of the applicants involved a MSc in Molecular Biology, fluency in English and prior documented experience with transgenic mouse models, confocal and electron microscopy is a prerequisite. Good knowledge of Greek.

Five applications were submitted to the Principal Investigator (PI) in charge i.e. George Garinis in response to the advertised position (Ref # OPZ-0044).

Dr. George Garinis, Dr. John Strouboulis and Dr. Vassiliki Nikolettou are the aforementioned scientists in charge on behalf of FORTH that consist the evaluation committee for the selection of postdoctoral scientists. The committee convened on June 19, 2017 and evaluated the applications that have been submitted for the open call regarding the position offered in the laboratory of Professor George Garinis. The committee decided to offer the job to Ms. Iliana Rouska. The selection was made on the basis of the education background of the applicant, his prior expertise and relevance in terms of her prior scientific focus to the DeFiNER's program aims and his publication record.

The applicant have been accordingly informed about the outcome of the evaluation process and Ms. Iliana Rouska was invited to sign a contract with IMBB-FORTH.

Heraklion, July 4, 2017

The selection committee:

George Garinis, PhD

Vassiliki Nikolettou, PhD

John Strouboulis, PhD
