

FOUNDATION FOR RESEARCH AND TECHNOLOGY - HELLAS
INSTITUTE OF MOLECULAR BIOLOGY AND BIOTECHNOLOGY

P.N. 8189 / 7-12-2015

One (1) Master Student Position

[Ref # OPZ-0009]

The research group of Neurogenetics and Aging of IMBB under the European Program **H2020-ERC-2014-GA646663**, entitled: "Nucleotide Excision Repair: Decoding its Functional Role in Mammals – DeFiNER" (Program Coordinator Prof. G. Garinis) invites applications for one (1) MSc Student position.

Position Description: functional role of Nucleotide Excision Repair in RNA metabolism

Qualifications: A BSc degree in Life sciences, fluency in English, prior experience with animal models and molecular biology methodologies will be considered a plus.

Contract Duration: 6 months, renewable based on the program's needs

Total budget: 350,00 € monthly cost

Envisaged starting date: 1 January 2016

Application submission: Interested candidates should submit their application electronically by **December 21, 2015 @ 12:00**.

The application should consist of:

1. CV
2. Brief statement of interest
3. The names of two referees

./..

Evaluation procedure

Applications will be evaluated by a three-member evaluation committee. In case of interview procedure, candidates will be invited to participate in person or teleconference.

The announcement of the results will be posted on the website of FORTH-IMBB.

The selected candidate will be notified personally regarding the success of his/her application and will be requested to submit certified copies of his/her degrees. In the event that the documents submitted do not agree with the original application the candidate will be dismissed.

Information and submission of applications

Prof. George Garinis
