According to the Grant Agreement for MANNA-695190, we have posted the advertisement for one (1) postdoctoral position in life sciences at the Tavernarakis laboratory. The text for the MANNA's open position posts has been published on December 21, 2016 at the website of the Institute of Molecular Biology and Biotechnology-FORTH (http://www.imbb.forth.gr/jobs/211216_Tavernarakis.pdf). The desired qualifications of the applicants involved a PhD, in Biology, documented experience in Biochemical assays with collective expertise in nematode genetics, at least one high impact factor publication, fluency in English.

Each applicant has submitted their application as complete .pdf files to the Lab Manager in charge i.e. Angeliki Pasparki in response to the advertised position (Ref # ORZ-0030) who archived all the applications. The number of applications that have been received is six (6).

Dr. Nektarios Tavernarakis , Dr. George Garinis, Dr. Vassiliki Nikolettou are the aforementioned scientists in charge on behalf of FORTH that consist the evaluation committee for the selection of the postdoctoral scientist. The committee convened on January 10, 2017 and evaluated the six (6) applications that have been selected for the open call regarding the position offered in the laboratory of Professor Nektarios Tavernarakis. After careful examination of all applications and the interview with selected candidates the committee decided to make an offer to the applicant: Dr. Eirini Lionaki. The selection was made on the basis of the education background of the applicants, their prior expertise and relevance in terms of their prior scientific focus to the MANNA's program aims and their publication records.

All the applicants have been accordingly informed about the outcome of the evaluation process and Dr.Eirini Lionaki was invited to sign a contract with IMBB-FORTH.
