Nucleotide Excision Repair: Decoding its Functional Role in Mammals

DeFiNER

IMBB-P.N.: 8241
23 December 2015

According to the Grant Agreement for DeFiNER-646663, we have posted the advertisement for one (1) PhD student position in life sciences at the Garinis laboratory. The text for the DeFiNER's open positions posts has been published on December 7, 2015 at the website of the Institute of Molecular Biology and Biotechnology-FORTH (http://www.imbb.forth.gr/jobs/071215_Garinis-OPZ0009.pdf). The desired qualifications of the applicants involved a BSc degree in Life sciences, fluency in English, prior experience with animal models and molecular biology methodologies.

Each applicant has submitted their application as complete .pdf files to the Principal Investigator (PI) in charge i.e. George Garinis in response to the advertised position (Ref # OPZ-0009); the PI archived all the applications. The number of applications that have been received is three (3).

Dr. George Garinis, Dr. John Strouboulis and Dr. Nektarios Tavernarakis are the aforementioned scientists in charge on behalf of FORTH that consist the evaluation committee for the selection of MSc student fellows. The committee convened on December 23 and evaluated the three (3) applications that have been selected for the open call regarding the position offered in the laboratory of Professor George Garinis. After careful examination of all applications and the interview with selected candidates the committee decided to make an offer to the applicants: Eleftheria Ledaki. The selection was made on the basis of the education background of the applicant, her prior expertise and relevance in terms of her prior scientific focus to the DeFiNER's program aims and her publication records.

All the applicants have been accordingly informed about the outcome of the evaluation process and Eleftheria Ledaki was invited to sign a contract with IMBB-FORTH.

Heraklion, December 23, 2015

The selection committee:

George Garinis, PhD

Nektarios Tavernarakis, PhD

John Strouboulis, PhD
