### One (1) PhD Studentship Position

[Ref # OPZ-0024]

The research group of Neurogenetics and Aging of IMBB under the European Program **H2020-ERC-2014-GA646663**, entitled: "Nucleotide Excision Repair: Decoding its Functional Role in Mammals – **DeFiNER**" (Program Coordinator Prof. G. Garinis) invites applications for one (1) PhD student position with documented expertise in Bioinformatics.

**Position Description:** Dissecting the functional role of Nucleotide Excision Repair in development and disease

**Qualifications:** MSc in Bioinformatics, fluency in English, prior documented experience with NGS analysis and approaches.

**Contract Duration:** 12 months, renewable based on the program's needs

**Total budget:** 750 € monthly studentship

**Envisaged starting date:** 1 January 2017

**Application submission:** Interested candidates should submit their application electronically by **November 20, 2016 @ 12:00**.

**The application should consist of:**

1. CV
2. Brief statement of interest
3. The names of two referees

### Evaluation procedure

Applications will be evaluated by a three-member evaluation committee. In case of interview procedure, candidates will be invited to participate in person or teleconference.

The announcement of the results will be posted on the website of FORTH-IMBB.

This publication confers the right to object to the results within 5 working days of the date of the results announcement.

The selected candidates will be notified personally regarding the success of his/her application and will be requested to submit certified copies of his/her degrees. In the event that the documents submitted do not agree with the original application the candidate will be dismissed.
