POSTDOCTORAL/DOCTORAL POSITION ANNOUNCEMENT

The Computational Biology Lab (http://www.imbb.forth.gr/people/poirazi/index.htm) at the Institute of Molecular Biology and Biotechnology (IMBB) -FORTH, www.imbb.forth.gr, headed by Dr. Panayiota Poirazi (http://www.imbb.forth.gr/personal_page/poirazi_new.html), invites applications for a postdoctoral or doctoral position (12 months) that will be available immediately as part of the “SINERGASIA” program (EDGE 901-13/11/2009) funded by the General Secretariat for Research and Technology, entitled “Development of a National Network for Genomic Research: Methodological approaches for Systems Biology”. The fellow will be responsible for the development and application of computational models for the inference and modeling of biological networks. Interesting findings will be tested experimentally. Necessary qualifications include research experience in bioinformatics/molecular biology and preferably in projects associated with the modeling of biological networks and their experimental verification.
