vector-borne diseases

INFRAVEC-2

IMBB-P.N.: 9324
10/3/2017

According to the Grant Agreement for INFRAVEC-2-731060, we have posted the advertisement for one (1) insectary technician position at the Vontas laboratory. The text for the INFRAVEC-2 open position post has been published on February 23, 2017 (IMBB P.N. 9275/23-2-2017) at the website of the Institute of Molecular Biology and Biotechnology-FORTH (http://www.imbb.forth.gr/jobs/230217_Vontas-OPZ-0037.pdf) and the DIAYGEIA System ADA: Ψ3Ε8469ΗΚΥ-60Ξ.

The desired qualifications of the applicants involved a Degree in Biology/Agronomy/Biotechnology, Master in Environmental Biology, experience in insect molecular biology and insecticide resistance, proven record of mosquito insectary maintenance, bioassays and molecular diagnostics application.

Two applications were submitted to the Principal Investigator (PI) in charge i.e. John Vontas in response to the advertised position (Ref # OPZ-0037).

Prof. John Vontas, Prof. Vassilis Bouriotis and Prof. Michael Kokkinidis are the aforementioned scientists in charge on behalf of FORTH that consist the evaluation committee for the selection of postdoctoral scientists. The committee convened on March 9, 2017 and evaluated the applications that have been submitted for the open call regarding the position offered in the laboratory of Professor John Vontas. The committee decided to offer the job to Ms. Anastasia Kampouraki. The selection was made on the basis of the education background of the applicant, her prior expertise and relevance in terms of her prior scientific focus to the INFRAVEC-2 program aims.

The applicant has been accordingly informed about the outcome of the evaluation process and Ms. Anastasia Kampouraki was invited to sign a contract with IMBB-FORTH.

Heraklion, March 9, 2017

The selection committee:

John Vontas

Vassilis Bouriotis

Michael Kokkinidis
