

**Expression of interest for a post-doctoral position at the Department of  
Biomedical Research, Ioannina, Greece**

The Department of Biomedical Research in Ioannina/Greece invites PhD holders to express their interest for a postdoctoral fellowship to study the role of the endothelium in Alzheimer's neurodegenerative disease, using in vitro cell co-culture models. The study will focus on the role of vesicular traffic and intercellular communication between endothelial and neuronal cells.

For expression of interest, please contact the following email address: [savvas\\_christoforidis@imbb.forth.gr](mailto:savvas_christoforidis@imbb.forth.gr)
