One (1) PhD Student Position
[Ref # PAR-0523]

The research group of Panayiota Poirazi under the International Program 1R01MH124867-02 entitled “Experimental and modeling investigations into microcircuit, cellular and subcellular determinants of hippocampal ensemble recruitment to contextual representations” (Program Coordinator Prof. Losonczy) invites applications for one (1) motivated PhD student to assist with the development of a detailed pyramidal neuron model using the NEURON simulator.

About the lab
The Poirazi Lab investigates how dendrites and their integrative properties contribute to learning and memory-related functions, using computational and experimental techniques. Our models explain findings and predict new roles for dendrites in functions such as spatial navigation/learning, working memory, associative memory, visual processing, etc. We also perform behavioral experiments in mice and use 2-photon imaging of prefrontal cortical neurons to investigate the cellular correlates of flexible behavior. The laboratory offers a thriving and lively research environment and is well-funded by several competitive grants.

About the project:
The successful applicant will work on a multidisciplinary collaborative project aiming to determine the importance of hippocampal pyramidal cells and different types of interneurons in spatial navigation and memory formation and storage. The project as a whole combines computational modeling, calcium imaging techniques, and molecular and behavioral experiments. This project is a collaboration between IMBB (Poirazi lab) and Columbia University (Losonczy lab).

Position Description:
The ideal candidate should have a Bachelor/MSc degree in biology or neuroscience and have a strong computational modelling expertise, preferably using the NEURON simulator. Applicants must be highly motivated and creative individuals who want to work in a dynamic, multidisciplinary research environment.

Required qualifications:
- BSc in Biology or Neuroscience
- MSc in Neuroscience or Computational Neuroscience
- Prior experience with computational modelling
- Enrollment in a postgraduate program leading to a doctoral degree
- Excellent oral and written skills in English language

Desired qualifications:
- Expertise in detailed neuronal modelling using the NEURON simulator
- Publications or conference presentations

Contract Duration: 3 months with the possibility of extension according to the project needs
Total budget: 900€ monthly cost (fellowship)
Envisaged starting date: 1/12/2023
Application submission: Interested applicants should submit their application electronically by 5th October 2023 @ 13:00 (Greece time)

The application should consist of:
1. Application Form (see below)
2. CV
3. Brief statement of purpose
4. The names and contact details of two referees
5. Scanned copies of academic titles
6. Scanned copies proving all the qualifications

Submission of applications: par0523@imbb.forth.gr

Evaluation procedure
Applications will be evaluated by a three-member evaluation committee. In case of interview procedure, applicants will be invited to participate in person or teleconference.

In case of titles and qualifications awarded by foreign Higher Education Institutions, the provisions of the Law 55/2023 (article 36) and 4957/2022 (article 304) are implemented.

The results of the selection will be announced on the website of IMBB-FORTH. Applicants have the right to appeal the selection decision, by addressing their written objection to the IMBB secretariat within five days since the results announcement on the web. Objections are submitted in one of the following ways: in person, by an authorized person, by post, by courier. They also have the right to access (a) the files of the applicants as well as (b) the table of applicants’ scores (ranking of applicants results). All the above information related to the selection procedure will be available at the secretariat of IMBB-FORTH in line with the Hellenic Data Protection Authority. Access to personal data of co-applicants shall be limited to personal data (and relevant data) and supporting documents which have been the basis of the evaluation of the applicants for the specific post(s). Prior to the announcement of the personal data and/or documents of the co-applicants to the applicant, FORTH will inform the data subjects in an appropriate way.

The selected applicants will be notified personally regarding the success of his/her application and will be requested to submit certified copies of his/her degrees. If the submitted documents do not agree with the original application, the applicant will be dismissed.

GDPR Disclaimer
FORTH is compliant with all legal procedures for the processing of personal data as defined by the Regulation EU/2016/679 on the protection of natural persons with regard to the processing of personal data. FORTH processes the personal data and relevant supporting documents that applicants have submitted. Processing of that data is carried out exclusively for the needs and purposes of this specific call. Such data shall not be transmitted to or communicated to any third party unless required by law.

FORTH retains the above data up to the announcement of the final results of the call, unless further process and reservation is required by law or for purposes of exercise, enforcement, prosecution of certain one’s legitimate legal rights’ as defined in the Regulation EU/2016/679 and/or in national law. Under the Regulation EU/2016/679, applicants have the rights to be informed about their personal data, access to, rectification and erasure, restrictions of process and objection to as provided by applicable regulation and national laws. Applicants have the right to file a complaint to the national Data Protection Authority. For any further information regarding exercise of personal data protection rights, applicants may contact the Data Protection Officer at FORTH at dpo@admin.forth.gr.
Applicants have the right to withdraw your application and consent for the processing of personal data at any time. In this case, FORTH shall destroy such documents and/or supporting documents submitted and shall delete the related personal data.

TO

FOUNDATION OF RESEARCH AND TECHNOLOGY (FORTH)
INSTITUTE OF MOLECULAR BIOLOGY AND BIOTECHNOLOGY

Hereby I submit my application for the position:
In the framework of the project: ____________________________________________ ____________________________________________
Position code [Ref #] ____________________________________________ ____________________________________________

Submitted with this application:
1. ____________________________________________ ____________________________________________ ____________________________________________
2. ____________________________________________ ____________________________________________ ____________________________________________
3. ____________________________________________ ____________________________________________ ____________________________________________
4. ____________________________________________ ____________________________________________ ____________________________________________
5. ____________________________________________ ____________________________________________ ____________________________________________

I certify that:

A) I accept the terms and conditions of the job announcement
B) I possess all the necessary certificates and documents and I can present them in their original form to the committee without any delay if I am asked to do so
C) I am able to complete the project within the foreseen time-frame
D) all the information given in the framework of this application are accurate and true.
