

# First IMBB Alumni Community Board meeting

On 6<sup>th</sup> April the members of the board of the IMBB Alumni Community had their first meeting. Professor Babis Savakis was elected chair of the board.

The board extensively discussed how to develop the Alumni Community to a dynamic forum for interaction between IMBB and the alumni, and among the alumni themselves. Within this framework, the meeting to celebrate the 40 years of IMBB with an Alumni Reunion was decided. The meeting will take place in FORTH on 28 July and will involve scientific presentations but also ample opportunities for social interaction and sharing memories from the long history of IMBB. IMBB will sponsor the event. More information on this event will be coming soon.
