

April 19, 2021

The Governing Board of FORTH approved the election of Dr Matthieu Lavigne as a Researcher C' of IMBB.

Dr Lavigne is currently a senior postdoctoral fellow at BSRC Al. Fleming in Athens. His research is focusing on deciphering the fundamental principles involved in gene regulation and DNA damage control in nuclear compartments and their involvement in disease pathogenesis. Dr Lavigne will also co-ordinate, together with Dr Panos Ioannidis, the activities of the new Horizontal Inter-Laboratory Bioinformatics Unit.
