## IMBB Alumni Community (IMBB-AC) launched

The IMBB Alumni Community (IMBB-AC) has been launched. This is an exciting time to connect as we mark the Institute's 40th Anniversary in 2023. We are very proud of our alumni, and would like to capture and celebrate their contributions to the history and success of the IMBB. It is a great opportunity to re-engage, share stories from the past, and explore how we can interact and work together again in the future. The broad expertise and experience of our alumni and their ability to help the next generations and support IMBB Mentoring and Career Track Scheme is a tremendous resource for the mutual benefit of the whole IMBB Alumni Community, in support of IMBB and life science research in the scientific community and society at large.

The IMBB Alumni Community will be initially governed by a five alumni members, who kindly accepted to serve on the board for the first two years of its launch: Babis Savakis, Irini Topalidou, Marirena Grigoriou, Maura Strigini, Chrysoula Pitsouli. Following this period, a new board will be elected by the members.
